Dear Friends:

In our Annual Report, Ogeechee Technical College chronicles significant events of the preceding year. We saw great accomplishments during 2014, and this report will provide a snapshot of many of those achievements.

One success that shines above all others is the College’s accreditation by the Southern Association of Colleges and Schools Commission on Colleges. Without doubt, the SACSCOC accreditation will have a powerful impact on the College, its students, and its graduates as we move forward. Our success in achieving accreditation could not have been accomplished without the teamwork which was evident at every step. Hundreds of employees, students, local board members, and Foundation members, as well as civic and governmental leaders, worked hard to achieve this goal. I can only say, “Thank you!”

If SACSCOC accreditation is the foundation for the College’s academic success in the future, the building projects which began in 2014 are the catalyst for meeting the physical needs of the College and its constituents. With the new Natural Resources Building coming out of the ground, a major overhaul of the Student Affairs area in the Joseph E. Kennedy Building underway, improvements to facades of the Occupational Studies and Health Science-South buildings, and the remodeling of the College’s Assessment Center, construction has been ongoing in all corners of the campus.

Another exciting success story for 2014 was the naming of the College’s Georgia Occupational Award of Leadership (GOAL) student, Luke Teague, as the state GOAL winner! This is the third time in seven years that an Ogeechee Tech student has been the state winner. We have also had a state first runner-up, state finalists, and several regional winners. This statewide recognition of our students is an indicator of the quality education available at Ogeechee Technical College.

As you will see in this report, these accomplishments — and many others — made for an exciting year. I hope you will enjoy reviewing the year 2014 and will share in our enthusiasm for the future of Ogeechee Technical College.

Best regards,

[Signature]

Dawn H. Carter, Ed.D.
President
Lucas “Luke” Teague, a Funeral Service Education student from Ogeechee Technical College, was named the Technical College System (TCSG) of Georgia’s 2014 Student of the Year.

Teague competed for the top student honor as part of the system’s annual Georgia Occupational Award of Leadership (GOAL) program, which recognizes the best students at each of the state’s 24 technical colleges and the Technical division at Bainbridge State College, which is part of the University System of Georgia.

“We are all extremely proud of Luke Teague. It’s an exceptional achievement for him to earn the honor as the top student from among the more than 150,000 students who enrolled in Georgia’s technical colleges during the past year,” stated previous TCSG Commissioner Ron Jackson in his April 2014 news release. “Luke impressed our judges with his excellent achievement in the classroom, strong communication skills, and the talent to be a very effective leader. The entire Technical College System of Georgia congratulates him for his well-deserved selection as our 2014 student of the year.”

Teague has a journalism degree from the University of Georgia and worked at radio stations in the Atlanta and Athens markets for about four years. He started working part-time at a funeral home out of interest in the profession and for extra income. Later, he went to work full-time with an Augusta funeral home while taking classes online at Ogeechee Tech and commuting to the Statesboro campus once a week. With his degree, he eventually wants to manage a funeral home or even own one.

“We are very proud of Luke and the way he has represented Ogeechee Tech and himself,” said Ogeechee Tech President Dr. Dawn Cartee. “Luke is a great advocate for technical education, and he will carry the message to all corners of the state for the next year and throughout his career.”

The distinction as Georgia’s top technical college student also means that Teague was the winner of the GOAL program’s grand prize, a brand-new, fully loaded 2014 Chevrolet Cruze, courtesy of Chevrolet and the Chevy dealers, which are the longtime statewide sponsors of the GOAL program. Edward Bailey, Southeast regional marketing manager for Chevrolet, congratulated Teague and presented him with the keys to the new car.

Selection for the GOAL program and student of the year competition starts with the naming of the top student at each college. A regional competition follows, where nine finalists are chosen to compete for the state GOAL award and earn the honor as Georgia’s technical college student of the year. The nine finalists are then interviewed in Atlanta by a panel of judges from business, industry, and higher education. At each step, the students are scored on their academic accomplishments, leadership qualities, involvement in their local communities, and future aspirations.

As the 2014 Technical College System Student of the Year and state GOAL winner, Teague serves as the system’s student ambassador during a number of local and statewide functions throughout the year. He will also speak before the Georgia General Assembly and receive a personal commendation from the governor.

Ogeechee Tech has had success at both the region and state levels of the GOAL program in recent years. Mally Bickerton won the state GOAL award in 2008, and Alivia Coax won the same in 2011, making Teague the third OTC student to win the top state prize in seven years. Stuart Gregory nearly won the top state prize in 2013, leaving as the first runner-up. Amanda Miller Roberson (2009), Cynthia Smits (2010), and Michael Williams (2012) were all regional finalists.

Teague was nominated for GOAL by Funeral Service Education instructor Michele Rupar. Kelli Waters, the GOAL coordinator for Ogeechee Tech, guided Teague through the local, regional, and state competitions.

Upon receiving the award, Teague said, “This is a humbling experience. I believe in the mission of technical education, and I will do everything within my power to be a worthy representative for TSCG and for Ogeechee Tech.”

“Luke impressed our judges with his excellent achievement in the classroom, strong communication skills, and the talent to be a very effective leader.”  
- Ron Jackson,  
Former TCSG Commissioner
Ogeechee Technical College was notified in June of 2014 that the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) granted full regional accreditation to the College. The accreditation was retroactive to January 1, 2014.

Years of work by Ogeechee Tech culminated in a simple phone call as the commission notified Dr. Dawn Cartee, president of Ogeechee Tech, that the accrediting body’s Board of Trustees approved initial accreditation following a lengthy process of documented compliance with the requirements and standards of the accrediting body.

“Obtaining SACSCOC accreditation is one of the most significant accomplishments in the history of Ogeechee Technical College,” Cartee said in a news release. “This will open additional doors for our students and provide them with a more seamless transition to other institutions, should they choose to further their education.”

Ogeechee Technical College joins more than 800 other SACSCOC accredited colleges and universities, including University System of Georgia schools such as Georgia Southern University, University of Georgia, and Georgia Tech. All schools accredited by SACS Commission on Colleges are held to a high standard of integrity and academic rigor.

Ogeechee Technical College began the process of regional accreditation when it became an official candidate institution in December of 2013, although a major portion of the preparation and work was conducted prior to that official candidacy date.

The Southern Association of Colleges and Schools Commission on Colleges is the regional body for the accreditation of degree-granting higher education institutions in the Southern states. It serves as the common denominator of shared values and practices among diverse educational institutions in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas, and Virginia, as well as in Latin America and at other international sites.

SACSCOC examines college operations and makes recommendations on how to improve the effectiveness of the institution by ensuring that the college meets standards established by the higher education community that addresses the needs of society and students.

Ogeechee Technical College had been nationally accredited by the Council on Occupational Education for many years, but the college began the process to achieve regional SACSCOC accreditation several years ago. Regional accreditation is the highest recognition sought by institutions of higher learning.

“Our faculty and staff, students, local Board of Directors, Foundation trustees, and numerous community members have all worked to achieve this accreditation,” Cartee said. “We could not have reached this goal without their help.”

OTC Local Board of Directors Chair at the time of the initial accreditation, Roger Moore of Evans County, commended the faculty and staff on the accreditation efforts, saying, “It is an honor to serve on the board of such a wonderful institution. Ogeechee Technical College makes such a positive difference in the lives of students and those served by the College’s graduates already, but the SACSCOC accreditation will open the door to even more powerful results. On behalf of the Board of Directors, I want to personally thank every member of the faculty and staff for the sacrificial work that was done to help bring this accreditation to reality.”

“This will open additional doors for our students and provide them with a more seamless transition to other institutions, should they choose to further their education.”

- Dr. Dawn Cartee, Ogeechee Technical College President
INDUSTRIAL MAINTENANCE GRANT ANNOUNCED

At a press conference held on the Ogeechee Technical College campus in October of 2014, Dr. Dawn Cartee, president of the College, announced a grant for the development of an Industrial Maintenance Program lab. Nearly $420,000 will go to purchase a training system which will allow Ogeechee Tech to prepare those who provide technical support and maintenance for equipment used in the manufacturing process at a variety of local industries. Funded by the Economic Development Administration (EDA) with a requirement of matching funds from local sources, the grant is a public-private partnership, according to Lori Durden, Vice President for Economic Development at Ogeechee Tech. “With half the funds coming from the EDA, and half from local sources, this project really pairs the public and private sectors to meet the needs of industry,” said Durden.

Cartee said that the grant comes after the College, the development authorities in Bulloch and Screven Counties, local industries, and the College’s Foundation worked together to ensure the College could take advantage of the grant by securing the required matching funds. “This is a true partnership with all the various entities providing key support to help develop this new and important program,” said Cartee.

According to information shared at the press conference, industries are finding it increasingly difficult to hire qualified individuals to maintain the intricate equipment used in the various manufacturing processes. “As many of the employees who have provided technical support for industries reach retirement age, replacing those positions with trained employees becomes a challenge,” said Durden. A number of the local industries have expressed a critical need to find trained folks to step into these positions. “Whether training someone who already works for one of the local industries, or training students who will seek employment with an industry, this program should meet the industrial maintenance needs that exist,” said Durden.

The local industries who have signed on to underwrite the matching funds requirement are Briggs & Stratton, Brodie International, Koyo Bearings North America, and Viracon. The Bulloch County Development Authority and the Screven County Development Authority also supported the grant with funding, as did the Ogeechee Technical College Foundation. “Having this program available locally at Ogeechee Tech will be a key element in attracting new industries,” said Ben Thompson, CEO of the Bulloch County Development Authority. “This Industrial Maintenance program really becomes another economic development tool as we seek to attract industries which positively impact our labor force and economy.”

While some industries have already committed to supporting the project, others may also join in the project in the future. “We are currently communicating with other area industries to secure their support as well,” said Durden. “Additional funds will allow us to have even greater educational resources to teach this program.”

According to Kathleen Kosmoski, Ogeechee Tech’s Director for Continuing Education and Industry Training, the Industrial Maintenance program will include three key components: E-Assessment, E-Learning, and a Hands-On Training Lab. The curriculum includes Industrial Electronics, Hydraulics, Pneumatics, Thermal Systems, and other vital elements. “The training will help enhance the skills of current industrial maintenance technicians, will create a labor pool to replace an aging and retiring workforce, and will provide an attractive training program for prospective industries,” said Kosmoski.

Kosmoski and Angie Rosengart, Ogeechee Tech’s Grants and Public Relations Coordinator, directed the grant application process. Letters of support in seeking the grant were received from Bulloch County Schools, Great Dane, King America, Crider, Inc., Statesboro-Bulloch Chamber of Commerce, State Senator Jack Hill, State Representative Jan Tankersley, and Congressman John Barrow. “This project truly was a team effort, and without the support of so many, we would not have been successful in receiving this grant,” said Cartee. “We just want to say thank you to everyone who had a part in the process.”

“THE TRAINING WILL HELP ENHANCE THE SKILLS OF CURRENT INDUSTRIAL MAINTENANCE TECHNICIANS, WILL CREATE A LABOR POOL TO REPLACE AN AGING AND RETIRING WORKFORCE, AND WILL PROVIDE AN ATTRACTIVE TRAINING PROGRAM FOR PROSPECTIVE INDUSTRIES.”

- Kathleen Kosmoski,
  Director for Continuing Education and Industry Training for Ogeechee Technical College
Kizzie Hayton Wins Eagle Award

Kizzie Hayton of Statesboro was chosen to represent Ogeechee Technical College at the EAGLE (Exceptional Adult Georgian in Literacy Education) Leadership Institute. EAGLE is the first statewide program in the nation that recognizes and rewards excellence among students enrolled in adult education programs. This student recognition program is designed to create greater awareness of educational opportunities that are available in local communities across the state and to foster greater involvement in lifelong learning pursuits.

FITLife Announced

A plan was unveiled to encourage faculty and staff to engage in healthy behaviors to produce happier and healthier employees. The mission of FITLife, [Future Is Today-Lifestyle Improvement For Employees] is to provide opportunities for employees to develop healthier lifestyles by adopting habits and attitudes which contribute to their positive well-being.

Bus Agreement Signed

President Dawn Cartee of Ogeechee Technical College and President Bob Busscher of East Georgia State College further solidified the partnership between the two institutions by signing an agreement to share bus transportation for their students. This is the first agreement to share transportation services between a Technical College System of Georgia (TCSG) Institution and a University System of Georgia (USG) Institution.

Remember the Titans Coach Speaks At Graduation

Coach Herman Boone, the inspiration for the 2000 movie Remember the Titans, was the featured speaker at Ogeechee Tech’s 2014 commencement ceremonies. The movie tells the story of conflicts on a newly integrated football team in Alexandria, VA. The graduates were inspired by his message of hope and perseverance.

Shane Todd Named A Top Instructor

Air Conditioning Technology Instructor, Shane Todd, was featured as one of the “Top Ten A/C and Refrigeration Instructors” on the blog for Sechel Ventures (HVACClasses.org/Blog).

College and City Collaborate On Fire Training

Ogeechee Technical College and the City of Statesboro entered into an agreement to facilitate a Firefighter I program to train those seeking to enter fire service. Offered as a credit program through Ogeechee Technical College, the program is a collaboration which will serve the needs of both the College and City. “This program will mutually benefit both entities because students completing the program will receive academic credit from Ogeechee Tech with a cost savings for the City, and the College will be able to utilize specialized equipment and facilities which are already in existence at the Statesboro Fire Department without having to purchase the same items for use in training through the College,” stated Ogeechee Technical College president, Dr. Dawn Cartee.

SkillsUSA Team Wins Gold

The SkillsUSA team of Ogeechee Technical College competed in the Georgia SkillsUSA competition, held in Atlanta, bringing home eight medals. The team secured three gold medals, four silver medals, and one bronze medal. Twenty-one Ogeechee Tech students competed in 15 areas, such as leadership development, occupationally related skills, and skilled and technical sciences.

Molly Bickerton Speaks at Capitol

At the “Go Back. Move Ahead.” press conference at the State Capitol, Governor Deal along with USG Chancellor Hank Huckaby and then TCSG Commissioner Ron Jackson spoke about the new initiative to streamline the process for citizens to return to complete their education. In addition, Molly Bickerton, a graduate of a USG school and a TCSG school spoke about her own experiences returning to school after having left at one point. Bickerton was the 2008 Georgia Occupational Award of Leadership winner at Ogeechee Tech and for TCSG.

College Holds Active Shooter Exercise

Ogeechee Tech Police Chief, Stan York coordinated a four-hour active shooter training drill. The purpose of the drill was to demonstrate the ability of the campus police department to notify support agencies with timely and accurate information during an emergency. The drill also prepared attendees to implement an incident command system and transition to a unified command as well as improve officers’ abilities to use best practices in a mock shooter situation.

OTC Offers Programs for Service Members

Ogeechee Tech announced that it received the distinction of being a Servicemembers Opportunity College (SOC). The SOC Consortium is comprised of almost 2,000 colleges and universities and is a vehicle to help coordinate “postsecondary educational opportunities for service members by strengthening working relationships between military and higher education representatives.”
INSTRUCTOR OF THE YEAR

Instructor of the Year honors went to Culinary Arts instructor, Anthony Piscano. Piscano represented the College at the Regional and State competitions for the Rick Perkins Award, a statewide Technical College System of Georgia award recognizing instructors who have won the top spot at each college.

AKINS ACCEPTS INTERNATIONAL INTERNSHIP

Jake Akins of Carrollton is the first Ogeechee Tech student to complete an International Internship. A Hotel, Restaurant, and Tourism Management student, Akins interned in Northern Ireland’s Global Village, a hotel in Belfast. Program director, John Witheringston, said, “Jake traveling to Europe for his internship is a perfect example of where a degree such as this can take you. With hard work, dedication, and a passion for serving others, the sky's the limit when it comes to career opportunities in this field of study.”

ADJUNCT INSTRUCTOR OF THE YEAR

Angie Kearney, an adjunct mathematics instructor, received recognition as Adjunct Instructor of the Year. A new employee award for 2014, the Adjunct Instructor award acknowledges the vital support adjunct instructors provide to the College. Kearney has taught at Ogeechee Tech for several years, and works full-time as a math teacher at Statesboro High School.

FUNERAL SERVICE EDUCATION STUDENT FEATURED IN NATIONAL PUBLICATION

Ogeechee Technical College Funeral Service Education student, Rodney Williams II, was recently featured in the American Funeral Director (AFD) magazine, a national publication dedicated to the funeral profession. AFD annually features up and coming funeral service students from around the country, and Williams was one of the few featured in an article entitled “Ones to Watch 2014.”

LEADERSHIP AWARD

Penny Hendrix, Disability and Student Support Services Coordinator, was presented the 2014 Leadership Award. The Leadership Award is given each year to an employee who exemplifies the qualities of someone who sets a good example for others, and leads by example.

DIAMOND AWARD

The Diamond Award was presented to Vanessa Pearssoll. She was recognized for unselfish dedication to serving others, exhibiting a true spirit of cooperation, and supporting the mission of Ogeechee Technical College. Whereas other employee awards are for particular categories, the Diamond Award is open to any employee who exhibits special qualities as described above.

ONEGEORGIA AUTHORITY ANNOUNCED

An EQUITY award of $500,000 from the OneGeorgia Authority was announced in 2014. The grant will assist with the purchase of equipment, software, and machinery necessary to support economic growth, to enhance the skills of current employees, and to prepare a work-ready labor force. By leveraging the expertise of Georgia Southern and Ogeechee Tech, the grant also encourages business startups through enhanced workforce training.

SUPPORT STAFF OF THE YEAR

Connie Hendrix received the Support Staff of the Year Award for her dedication to the College, and for always going the extra mile to ensure that students, employees, and others, receive the attention and care need to succeed. Hendrix works as an Administrative Assistant in the Academic Affairs division.

GRADUATE FINDS SUCCESS

Stuart Gregory, Ogeechee Tech computer information systems and drafting graduate, immediately put his training into effect by starting his company, Dynamic Solutions, a unique computer consulting firm that provides a myriad of services that meet technical needs of Statesboro and the surrounding areas. Along with two more OTC graduates, Ian Winsmies and Paul Wheeler, the company is becoming well known and respected in the community.

COLLEGE BUILDING GETS GREEN DESIGNATION

Ogeechee Technical College received the distinction of being the first state agency in Georgia to have a building constructed which meets the Georgia Peach Green Building Rating System standards. The College’s Health Science-North Building received this designation.
Dear Friends of Ogeechee Technical College:

Helping students reach their goals of improving their lives and contributing to society is a major focus of the Ogeechee Technical College Foundation, Inc. Supporting the College with scholarships, equipment, faculty and staff development, emergency funds, and other essential assistance is critical, and something that is done through the generosity of countless benefactors. In 2014, projects supported by the Foundation included the provision of state-of-the-art Sonography equipment for the lab in that program, assistance in purchasing a new Commercial Truck Driving program truck, and GED® scholarships to help those with the most acute educational challenges.

Volunteers annually help the Foundation raise needed funds, and each volunteer and contributor have the gratitude of the Foundation Board of Trustees who guide the Foundation in assisting the College and its students. Thank you to each person who supports the Ogeechee Technical College Foundation, Inc. Your continued assistance is solicited, and appreciated.

Sincerely,

Bill Perry
President
Ogeechee Technical College Foundation, Inc.

The annual iGat (I Give to Ogeechee Tech) campaign continues to be successful each year. The generosity of numerous donors and the hard work of volunteers help make vital funds available for the needs of the College.

The annual iGat (I Give to Ogeechee Tech) campaign continues to be successful each year. The generosity of numerous donors and the hard work of volunteers help make vital funds available for the needs of the College.

A major initiative of the Foundation in 2014 was assisting the College in purchasing a new Commercial Truck Driving program truck. With the proximity to the Savannah port and a booming logistics industry, the $70,000 Foundation investment will help meet a critical need for qualified operators.

SCHOLARSHIPS

The Ogeechee Technical College Foundation held its annual scholarship banquet at the College in September. The dinner is held each year during fall semester to recognize Ogeechee Tech students who received scholarships for the year. Benefactors, faculty and staff, students, and family of the students were on hand to show their support for the recipients. Scholarship recipients are pictured.
Ogoshchee Tech enrolled 3,196 students in credit courses during Academic Year 2014. This was a Full Time Equivalent (FTE) of 1,966 students (based on the sum of total credit hours for all students).

The college's Student Retention Rate is 67% (based on first-time, regular admitted students enrolled in Fall 2012, who graduated or were still enrolled in a Georgia technical college or university system college as of the end of AY 2014).

High School Collaboratives (based on AY 2014 credit enrollment)
High School students enrolled at Ogoshchee Tech 72
These are currently enrolled high school students who are enrolled in the technical college. Students can be dual enrolled (taking postsecondary courses for both high school and postsecondary credit), joint enrolled (taking postsecondary courses for postsecondary credit only), or both.

Graduates (based on AY 2014 graduates)
Workforce development is a key mission of Georgia’s technical college system. An unduplicated total of 997 graduates received awards from this institution in AY 2014.

The three-year percent change in graduates from FY 2011 to AY 2014 = 0.4%

Awards conferred (some graduates received an award in more than one program):
- Technical Certificates of Credit: 957 (68.4% of total awards)
- Diplomas: 284 (20.3% of total awards)
- Associate Degrees: 159 (11.4% of total awards)
- Total Awards: 1,400

Students graduated from these program areas (some students received awards in more than one area):
- Business & Computer Information Systems: 177
- Health: 432
- Industrial/Natural Resources: 239
- Personal/Public Services: 158

Job Placement (based on AY 2012 graduates and graduates available for employment)
97.6% of graduates were placed in a job that was in their field or a related field of study, or they went on to continue their education.
PROGRAMS OF STUDY

Our Mission
Ogeechee Technical College, a unit of the Technical College System of Georgia, is a public institution of higher education that contributes to the economic, educational, and community development of its three-county service area of Bulloch, Evans, and Screven counties. OTC provides technical education programs at the associate degree, diploma, and certificate levels utilizing traditional and distance education methodologies; student support services; adult literacy education; continuing education; and customized business and industry workforce training to the citizens of the communities it serves.
