A history of the school's main campus, the Joseph E. Kennedy Building, is now being remodeled and upgraded with funds from the state. The project is expected to be completed in 2017.

The governor has approved a budget of over $100 million for the state's technical colleges, including $2.9 million for the Ogeechee Technical College to renovate the Kennedy building.

The renovation will include new classrooms, a bookstore/student center, and a new student lounge.

Residents and staff at the college are excited about the new look of the building, which has been in operation for over 20 years.

The renovation is expected to cost approximately $2.9 million and will be completed in 2017.
Suspect jailed on assault charges
