

Agribusiness Associate of Applied Science (AG13)

DESCRIPTION

Agribusiness is the study of the business and economics of agribusiness firms. Agribusiness possess many unique challenges and opportunities including risks and uncertainties of agricultural production, reliance on natural resources, government involvement with food and agriculture, competitive nature of the agribusiness sector, innovative technology within commercial agriculture and food processing, and global impacts of food and agriculture. The agribusiness curriculum allows individuals to gain an appreciation for management and technology concepts needed for the agricultural industry. This program develops knowledge and skills in management, production, and marketing as related to agribusiness management.

EMPLOYMENT OPPORTUNITIES

Graduates of the Agribusiness Associate of Applied Science degree program are prepared to work in a variety of agricultural-related fields such as agricultural production, management, mid-management, marketing, and banking and finance.
