

Information Technology Professional Associate of Applied Science (ITP3)

Description

The Information Technology Professional Associate of Science degree program will emphasize specialized training in home and corporate networking; computer maintenance; operating system installation, maintenance, and troubleshooting; information security; computer programming; and web site design. Program graduates are employable as information technology specialists, help desk support specialists, network installation specialists, PC repair technicians, or network administrators.

Employment Opportunities

Graduates of the Information Technology Professional degree program provide technical assistance, support, and advice to individuals and organizations that depend on information technology. They work within organizations that use computer systems, for computer hardware or software vendors, or third-party organizations that provide support services on a contract basis, such as help-desk service firms. They set up, test, and evaluate systems such as local area networks (LANs), wide area networks (WANs), the Internet, intranets, and other data communications systems.

Admissions Criteria

- Submit a completed application and application fee;
- Be at least 16 years of age;
- Submit official high school transcript or GED transcript;
- Submit official college transcripts, if applicable;
- Meet the following assessment requirements:

Test	Reading	Writing	Numerical	Algebra
Accuplacer	64	70	NA	57
