Common Tips

- Tips:**
- Use a security question and answer that is unchanging. If you use a pet's name but get a new pet, you may have to play a guessing game later.
 - The security question answer is case sensitive. Remember to type this in as you will from this point forward.
 - View your **Registration Fee Assessment**. Even if you have assistance through Financial Aid that pays your tuition, this screen will warn you of any charges that may be required such as liability insurance and prevent your schedule from being purged.
 - Ask questions when needed. If you are unsure about a course, transfer course, or substitution for your program curriculum, be sure to ask your advisor early so that issues can be resolved.
 - Register as soon as possible once advisement begins. Courses are set with a maximum enrollment number for students and can fill for the times or days that you wish to attend.
 - The Class Schedule and the Course Catalog are available on the Banner Log in page and can be viewed as you are trying to determine your scheduling needs.
 - Students and advisors can use Degree Works to evaluate your course progress towards the program curriculum requirements to determine what courses are needed for your graduation.
